NOTE

Les appellations employées dans cette publication et la présentation des données qui y figurent n'impliquent de la part du Secrétariat de l'Organisation météorologique mondiale aucune prise de position quant au statut juridique des pays, territoires, villes ou zones, ou de leurs autorités, ni quant au tracé de leurs frontières ou limites.

INTRODUCTION

This publication, which is issued quarterly, in January, April, July and October, lists information on the composition of the World Meteorological Organization and its constituent bodies.

The Membership of the Organization is presented in the form of a table of Members (States and Territories) in English alphabetical order. The table contains the following information for each Member:

- The article of the Convention under which Membership was applied for;
- The date on which the instrument of ratification or accession to the Convention was deposited;
- The regional association(s) to which the Member belongs;
- The technical commissions for which members have been nominated by the Member.

This is followed by a nominal list of members of the Executive Council with an indication of the respective capacities in which they serve.

The Membership of regional associations is then given in the English alphabetical order of Members, and for each Member the name, the national official capacity and the address of the permanent representative are given. This part of the publication, which constitutes a list of permanent representatives of Members with WMO, also includes, where applicable, the name and address of the hydrological adviser (H) to the permanent representative.

This is followed by lists showing the membership of each technical commission. The names and addresses of the president, the vice-president and the members of each commission are given.

The addresses of the WMO Regional Offices are given on the last page.

The contents of each edition are based upon the latest official information available in the Secretariat by the middle of the month preceding the month of issue.

To facilitate the updating of address cards, changes since the preceding edition are shown by an asterisk in the margin. The recipients of this edition are requested to inform the Secretariat of any changes in, or of any addition to, the information concerning them, by sending as an annex to their letter, a photocopy of the page(s) to be amended, with the corrections clearly indicated in handwriting, or by filling the attached form.

INTRODUCTION

Cette publication, qui comporte quatre éditions par an, en janvier, avril, juillet et octobre, est un recueil de renseignements sur la composition de l'Organisation météorologique mondiale et de ses organes constituants.

La composition de l'Organisation est présentée sous la forme d'un tableau des Membres (Etats et Territoires) classés selon l'ordre alphabétique anglais. Ce tableau contient pour chaque Membre les renseignements suivants :

- l'article de la Convention en vertu duquel la demande d'admission a été faite;
- la date à laquelle l'instrument de ratification ou d'adhésion à la Convention a été déposé;
- le Conseil régional* ou les conseils régionaux* dont le Membre fait partie;
- les commissions techniques pour lesquelles le Membre a désigné des représentants.

Ce tableau est suivi d'une liste nominative des membres du Conseil exécutif précisant en quelle qualité ceux-ci font partie de cet organe constituant.

La composition des Conseils régionaux est donnée ensuite selon l'ordre alphabétique anglais des Membres; le nom, le titre officiel sur le plan national et l'adresse du représentant permanent de chaque Membre sont précisés. Cette partie de la publication, qui constitue une liste des représentants permanents des Membres auprès de l'OMM, contient également, le cas échéant, le nom et l'adresse du conseiller du représentant permanent en matière d'hydrologie (H).

Viennent ensuite des listes reflétant la composition de chaque commission technique. Les noms et adresses du président, du vice-président et des membres de chaque commission sont également mentionnés.

En dernière page, on trouvera les adresses des bureaux régionaux de l'OMM.

Le contenu de chaque édition est basé sur les renseignements officiels les plus récents dont dispose le Secrétariat au milieu du mois précédent le mois de publication de la nouvelle édition.

Pour faciliter la mise à jour des fichiers d'adresses, les changements survenus depuis l'édition précédente sont signalés par un astérisque dans la marge. Les Membres qui reçoivent cette édition sont priés de communiquer au Secrétariat tout changement ou complément d'information les concernant, en annexant à leur lettre une photocopie de la (des) page(s) contenant les corrections clairement indiquées à la main, ou en complétant le formulaire ci-joint.

* Par ses résolutions 11.2/3 (Cg-XIV) et 11.3/5 (Cg-XIV), le Quatorzième Congrès météorologique mondial (Genève, mai 2003) a décidé que dans la version française du Règlement général de l'OMM, les termes « Regional Association » et « Association » devaient être traduits respectivement par « Conseil régional » et « Conseil ».

The following statement is given at the request of the Government of the People's Republic of China:

"On October 11, 1947, the representative of the Chinese Government signed the Convention of the World Meteorological Organization. After the founding of the People's Republic of China, her rightful in WMO was usurped by the Jiang Jie Shi clique, whose "ratification" of the Convention of the World Meteorological Organization on March 2, 1951 was illegal and null and void. The rightful seat of the People's Republic of China was restored to her on February 25, 1972".

La déclaration qui suit est faite à la demande du Gouvernement de la République populaire de Chine:

"Le 11 octobre 1947, le représentant du Gouvernement chinois a signé la Convention de l'Organisation météorologique mondiale. Après la fondation de la République populaire de Chine, le siège auquel celle-ci avait droit au sein de l'OMM a été usurpé par le clique de Jiang Jie Shi dont la "ratification" de la Convention de l'Organisation météorologique mondiale, le 2 mars 1951, était illégale, nulle et sans effet. Le siège qui revient légitimement à la République populaire de Chine lui a été restitué le 25 février 1972."

12th WMO Congress (1995) accepted the request of the Kingdom of the Netherlands to continue the Membership of the Netherlands Antilles under Article 3(d) under the name 'Netherlands Antilles and Aruba'. Aruba was a part of the Netherlands Antilles when the Netherlands Antilles became a Member of WMO in 1951. It became an autonomous part of the Kingdom of the Netherlands in 1986 but the Netherlands Antilles and Aruba retain a common Meteorological Service.

Le 12ème Congrès (1995) a accepté la demande du Royaume des Pays-Bas, en vertu de l'article 3 (d) de la Convention, que le territoire des Antilles néerlandaises resterait Membre de l'OMM comme faisant partie du groupe de territoires formé par les Antilles néerlandaises et Aruba. Aruba, qui faisait partie des Antilles néerlandaises lorsque ce territoire est devenu Membre de l'OMM en 1951, a accédé à l'autonomie au sein du Royaume des Pays-Bas en 1986. Les Antilles néerlandaises et Aruba exploitent cependant le même Service météorologique.
